## *Ronald McDonald House Shreveport-Bossier*

In 1974, the very first Ronald McDonald House was built with the simple premise that families shouldn't have to worry about where to stay, how they will feed their family, or feel isolated when their child is in the hospital. The newest Ronald McDonald House, in Shreveport-Bossier, is a light-filled 3-story haven of respite for families, opened in October 2025. It is located on the campus of Willis Knighton South and also serves families of pediatric patients at any Shreveport hospital. Here, families will find a welcoming space and the friendly faces of our compassionate staff and dedicated volunteers. All services are provided at no cost to families. The items on this wish list are vital in helping those families have a comfortable home away from home. Anything you can provide will be helpful.
